Submission-Control Notice

This instrument is an internal filing workpaper, not a filed Form 1023 and not legal or tax advice. Double-bracket placeholders must be replaced with verified facts. Any answer concerning current members, attendance, worship, ministers, finances, compensation, facilities, rites, programs, or other operations must come from contemporaneous records. Do not convert a planned activity into a present fact merely to strengthen a church-classification application.

Primary IRS baseline: IRS Instructions for Form 1023 (Rev. December 2024; continuous-use for 2024 and later until superseded). The live Pay.gov form controls at the moment of filing and must be rechecked immediately before submission.

1. Purpose

CH-051 defines the evidentiary attachment packet supporting Form 1023 and Schedule A. It is an assembly specification, not permission to submit draft instruments as though adopted or operational. The final Pay.gov attachment should contain only accurate, relevant, reasonably necessary evidence and must be consolidated into the single PDF permitted by current IRS instructions.

2. Public-Inspection Rule

An approved exemption application and supporting materials are generally subject to public inspection. The filing packet therefore should not contain Social Security numbers, passwords, private pastoral communications, unnecessary member-identifying details, unredacted safeguarding case files, unnecessary donor identity information, medical details, or other sensitive data not specifically required. Use aggregate member/attendance evidence and representative records whenever that adequately answers the IRS question.

3. Proposed Exhibit Architecture

Exhibit	[[LETTER]] - [[TITLE]]
Form 1023 reference	[[PART / LINE / SCHEDULE A LINE]]
Document status	[[ADOPTED / FILED / REPRESENTATIVE RECORD / SUMMARY]]
Date range	[[DATES]]
Public-redaction review	[[COMPLETE / NOT REQUIRED]]
Certification	This exhibit is a true copy or accurate summary of the record described, subject to stated redactions.

5. Supplemental Response Assembly Order

- Cover page identifying organization, EIN, requested classification, submission date placeholder, and attachment version.
- Table of contents / CH-052 Master Exhibit Index.

3. Part III organizing-document references if additional explanation is needed.
4. Part IV narrative description of activities (CH-034 filing version).
5. Part V compensation/relationship supplemental responses, if needed.
6. Part VI financial supplemental schedules, if needed.
7. Part IX annual-filing-exception explanation, if claimed.
8. Schedule A narrative responses and church-classification supplement.
9. Certified organizing document and amendments.
10. Adopted bylaws.
11. Selected exhibits A-Y in the order needed to substantiate answers.

6. File-Size and Redaction Control

- Target final PDF well below the 15 MB maximum to leave margin for conversion overhead.
- Prefer text/vector PDF over high-resolution scanned images.
- Use representative bulletins, literature excerpts, summaries, and catalogs when full archives are unnecessary.
- Do not submit the complete membership register unless specifically required; use counts and aggregate summaries where sufficient.
- Do not submit confidential discipline/safeguarding records merely to prove a discipline system exists; submit the code/policy and nonconfidential evidence of implementation if needed.
- Ensure every supplemental page contains organization name and EIN and identifies the Part/line it supports.

7. Evidence Integrity Rules

- No backdated service records, attendance logs, membership actions, credentials, minutes, financial entries, or rites.
- Historical reconstructions must be clearly labeled as reconstructions and identify their source basis.
- Representative samples must actually be representative; do not cherry-pick an unusual service to imply ordinary practice.
- Draft policy is not evidence of adoption; adoption requires a valid resolution/minute or other competent authority.
- A planned program is described as planned until it begins.
- Online views, followers, subscribers, and newsletter recipients are not automatically counted as congregational attendance.

Current IRS References

- Instructions for Form 1023, Rev. December 2024 (continuous-use instructions for 2024 and later until superseded).
- Form 1023 and Form 1023-EZ: Amount of User Fee - current Form 1023 fee listed by IRS as \$600 as of this draft date.
- Current IRS Form 1023 / Pay.gov filing process - electronic submission only.

- Publication 1828 - Tax Guide for Churches and Religious Organizations.
- Form 8940 instructions - later request for church classification where appropriate.

The IRS currently states that Pay.gov accepts only one uploaded attachment file and that the consolidated PDF may not exceed 15 MB. Each supplemental-response page should identify the organization name, EIN, and the relevant Part/line.

Workpaper Approval

This workpaper may be approved for internal filing preparation but shall not be treated as authorization to submit Form 1023. Final submission requires a separate governing-body authorization after all blockers are resolved and the live Pay.gov application is reviewed in full.
